Kentucky in his teenage years. Mr. Grundy attended Aeronautical School in California and eventually became a teacher there. He then worked for Pan American Airlines.

Mr. Grundy faithfully served his country in various capacities for more than 30 years. During World War II, Mr. Grundy served his country as an Engineering Officer and Air Crew Member. He reached the rank of Major in the United States Army in 1946. At the close of World War II, Mr. Grundy exchanged active duty for the reserves and returned to Pan American. Later he was transferred to Shanghai, China to work for the China National Aviation Corporation.

Mr. Grundy served concurrently as President of Air America, Air Asia, and Civil Air Transport from 1954 to 1976. As President of Air America, Mr. Grundy commanded over 10,000 men and women serving in Vietnam, Cambodia, Laos, and Thailand. Mr. Grundy came out of retirement twice in order to return to preside over Southern Air Transport, a company based in Miami, Florida.

In June of 2001, the CIA presented Mr. Grundy with two citations, one in his capacity as President of Civil Air Transport and Air America, and one to him personally. This was the second time Mr. Grundy was given recognition by the CIA, the first being a medal for Honorable Service upon the occasion of his retirement from Air America.

Today I rise, Mr. Speaker, to salute Mr. Grundy for his commitment to aviation, his service to our country, and his patriotic leadership throughout the years.

INTRODUCTION OF ENERGY MARKETING MONITORING ACT—H.R. 2331

HON. STEPHEN HORN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Wednesday, June 27, 2001

Mr. HORN. Mr. Speaker, for the past year, the energy markets in California have been in a state of turmoil that has produced periodic blackouts, soaring prices for electricity and natural gas and a deep uncertainty about energy supplies for the future. In addition to those serious concerns, there have been a wide range of charges that energy suppliers are engaging in illegal collusion to fix market prices and gouge consumers.

Earlier this year, on January 22nd, I asked the General Accounting Office, our non-partisan and highly professional source for detailed information on many subjects, to investigate what was happening in California and to provide an overview of information on prices and impacts on consumers, producers and electricity providers. I also requested information on the causes of price increases and problems with the reliability of energy supplies. Finally, I requested evaluation of actions taken by the Federal Energy Regulatory Commission, the state of California, and other parties involved.

Although GAO has been able to provide preliminary information regarding California's supply, demand, and market problems, there has been a significant problem in obtaining the detailed market information necessary for comprehensive analyses or evaluation. GAO interviews with these market participants have

yielded only general information and it is unclear at this time whether FERC has in its possession comprehensive market data.

In short, Mr. Speaker, at a time when Congress is wrestling with the complex and highly technical issues involved in both the California market and national energy supply, our own expert agency has limited access to the information it needs to provide analysis of what is happening and recommendations on what should be done to change federal laws and regulations.

In creating the Federal Energy Regulatory Commission (FERC) in 1977 under the Department of Energy Organization Act, Congress did not explicitly address the Comptroller General's (GAO's) authority to request and subpoena information from any body subject to FERC jurisdiction. Today, I am introducing legislation to correct this problem by making clear that the GAO and the Comptroller General have the authority to request and subpoena information from energy companies or other participants subject to the jurisdiction of the Federal Energy Regulatory Commission.

This legislation clarifies the functions of the Comptroller General to include:

Monitoring and evaluating the functions and activities of FERC.

Access to market information from those subject to FERC jurisdiction including energy prices, costs, demand, supply, industry and market structure, auction processes, and environmental impacts.

Authority to issue subpoenas, and compliance with any issued subpoena, to those subject to FERC jurisdiction to carry out the responsibilities of this Act including any audit, investigation, examination, analysis, review or evaluation.

It is essential that Congress and the American people have access to detailed and unbiased information on what is happening in our energy markets. The General Accounting Office is the right source for such information and I urge my colleagues to support this legislation to make certain that GAO has the tools it needs to perform its job in monitoring our energy markets.

The text of H.R. 2331 is below:

H.R. 2331

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

SECTION 1. SHORT TITLE.

This Act may be cited as the "Energy Market Monitoring Act".

SEC. 2. FINDINGS.

The Congress makes the following findings: (1) When Congress created the Federal Energy Regulatory Commission in 1977 under the Department of Energy Organization Act, it did not explicitly address the Comptroller General's authority to request and subpoena information from facilities or businesses engaged in energy matters related to the Federal Energy Regulatory Commission's activities. Clarification of the scope of the Comptroller General's access to such information would facilitate the Comptroller General's monitoring of the Nation's energy programs.

(2) For markets to function properly to provide consumers with goods at a competitive price, and to protect consumers from unjust prices or price manipulation, the markets must be transparent in their transactions. Although the Federal Energy Regulatory Commission is responsible for market monitoring, it is unclear whether the Federal

eral Energy Regulatory Commission has in its possession or has requested from market participants comprehensive market data.

(3) To ensure transparency of energy markets, and to help protect both consumers and suppliers, the General Accounting Office, as the investigative arm of Congress, must have full authority to examine all markets and market participants' activities.

SEC. 3. FUNCTIONS OF COMPTROLLER GENERAL.

(a) AMENDMENT.—Title IV of the Department of Energy Organization Act (42 U.S.C. 7171-7177) is amended by adding at the end the following new section:

"FUNCTIONS OF COMPTROLLER GENERAL

"SEC. 408. (a) SCOPE OF ACTIVITIES.—The Comptroller General shall monitor and evaluate the functions and activities of the Federal Energy Regulatory Commission.

"(b) ACCESS TO INFORMATION.—Any person owning or operating facilities or business premises subject to the jurisdiction of the Federal Energy Regulatory Commission shall provide the Comptroller General with access, including the right to make copies, of any books, documents, papers, statistics, data, records, and information where such material relates to the jurisdiction of the Federal Energy Regulatory Commission, including materials related to energy prices, costs, demand, supply, industry and market structure, auction processes, and environmental impacts.

"(c) SUBPOENAS.—To assist in carrying out the Comptroller General's responsibilities under this section, including any audit, investigation, examination, analysis, review, or evaluation, the Comptroller General may issue subpoenas to any person described in subsection (b) requiring the production of any books, documents, papers, statistics, data, records, and information.

"(d) SECURING COMPLIANCE WITH SUB-POENA.—Upon petition by the Comptroller General or the Attorney General (upon request of the Comptroller General), any United States district court within the jurisdiction of which an inquiry under this section is carried out may, in the case of refusal to obey a subpoena of the Comptroller General issued under this section, issue an order requiring compliance therewith, and any failure to obey the order of the court may be treated by the court as a contempt thereof."

(b) TABLE OF CONTENTS AMENDMENT.—The table of contents of title IV of the Department of Energy Organization Act is amended by adding after the item relating to section 407 the following new item:

"Sec. 408. Functions of Comptroller General.".

INDIAN GOVERNMENT FOUND RESPONSIBLE FOR BURNING SIKH HOMES AND TEMPLE IN KASHMIR

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES Wednesday, June 27, 2001

Mr. TOWNS. Mr. Speaker, in March 2000 when President Clinton was visiting India, 35 Sikhs were murdered in cold blood in the village of Chithi Singhpora in Kashmir. Although the Indian government continues to blame alleged "Pakistani militants," two independent investigations, by the Movement Against State Repression and Punjab Human Rights Organization and the International Human Rights Organization based at Ludhiana, have proven that the Indian government was responsible for this atrocity.
